BOARD OF DIRECTORS REGULAR MEETING

DATE:

Wednesday, April 9, 2025

TIME:

5:00 p.m.

PLACE:

Leucadia Wastewater District

1960 La Costa Avenue, Carlsbad, CA 92009

AGENDA

Items on the agenda may be taken out of sequential order as their priority is determined by the Board of Directors. In the case of an emergency, items may be added to the Agenda by a majority vote of the Board of Directors. Also, items that arise after posting of the Agenda may be added, per Government Code Section 54954.2, by a 2/3 vote of the Board. All agenda materials can be accessed at the District website at https://www.lwwd.org/agendas/board and are also available for public inspection in the Administration Office located at 1960 La Costa Avenue, Carlsbad, CA 92009 during normal business hours.

In compliance with the Americans with Disabilities Act, if you need assistance to participate in this meeting, please contact the Executive Assistant at (760) 753-0155. Notification 48 hours prior to the meeting will enable the District to make reasonable arrangements to ensure accessibility to this meeting.

- 1. Call to Order
- 2. Roll Call
- 3. Pledge of Allegiance
- 4. General Public Comment Period
- 5. Approval of Agenda
- 6. Presentation and Awards
 - A. Teacher Grant Recipients. (Verbal)
 - B. Achievement of Organizational Objective Three Years No Vehicle Accidents (Page 6)

CONSENT CALENDAR

Items 7-12 will be enacted in one motion in accordance with the recommendation unless removed from the Consent Calendar by the Board of Directors, Staff or Public. If a member of the public wishes to remove an item, they should submit a "Request to Address the LWD Board of Directors" form to the Board Secretary prior to the meeting. Items removed from the Consent Calendar will be considered in the original agenda order immediately following adoption of the Consent Calendar.

7. Approval of Board and Committee Minutes

Minutes of the following meetings:

March 12, 2025 Regular Board Meeting (Pages 7-12)
March 31, 2025 Engineering Committee Meeting (Pages 13-15)

8. Approval of Demands for March and April 2025

This item provides for Board of Directors approval of all demands paid from LWD during a portion of March and a portion of April 2025. (Pages 16-25)

9. Operations Report

This report discloses the year-to-date and monthly flow, rainfall, EDU's and reclaimed water averages; along with MGD flow comparisons from FY24 to FY25, flows by subbasin, and staff training. (Pages 26-32)

10. Finance Report

This report discloses up-to-date schedule of assets, liabilities, net assets and compares fiscal year-to-date expenditures to the FY25 budget and discloses monthly investments. (Pages 33-40)

11. Disclosure of Reimbursements

This report discloses travel expense reimbursements for the month of March 2025. (Pages 41-42)

12. Status Update on the Fiscal Year 2025 (FY25) LWD Tactics and Action Plan (Pages 43-48)

EWA REPORTS

13. Encina Wastewater Authority Reports

A. A regular EWA Board Meeting was held on March 26, 2025. (Pages 49-50)

B. An Encina Member Agency Manager's (MAM) Meeting was held on April 1, 2025. (Verbal)

COMMITTEE REPORTS

14. Committee Reports

A. An Engineering Committee meeting was held on March 31, 2025. (Page 51)

ACTION ITEMS

15. Board of Directors Compensation Adjustment (Pages 52-53)

16. Revision of Leucadia Wastewater District Standard Specifications and Procedures for Wastewater Facility Projects

Adopt Resolution No. 2427 revising Leucadia Wastewater District Standard Specifications and Procedures for Wastewater Facility Projects. (Pages 54-58)

17. Resolution No. 2428 Requesting LAFCO to Take Proceedings for the Miller & Hall Change of Organization

Adopt Resolution No. 2428, Miller & Hall Annexation, as presented. (Pages 59-63)

18. Leucadia Wastewater District Fiscal Year 2025 Pump Station Condition Assessment Report

Receive and file the Leucadia Wastewater District Fiscal Year 2025 Pump Station Condition Assessment Report completed by Water Works Engineers, LLC. (Page 64-68)

INFORMATION ITEMS

- 19. Project Status Updates and Other Informational Reports
 Overview of the Encina Wastewater Authority Cogeneration Low-Emission Augmentation and Retrofit (CLEAR) Project. (Verbal)
- 20. Directors' Meetings and Conference Reports None.
- 21.General Manager's Report
- 22.General Counsel's Report
- 23. Board of Directors' Comments
- 24. Adjournment

AFFIDAVIT OF POSTING

I, Paul J. Bushee, Secretary of the Leucadia Wastewater District, hereby certify that I posted a copy of the foregoing agenda in the lobby of the District office at 1960 La Costa Avenue, Carlsbad, California and on the District website www.lwwd.org at least 72 hours prior to the meeting, in accordance with Govt. Code Section 54954.2(a).

Date:

April 3, 2025

Paul J. Bushee, Secretary/General Manager

Board of Directors' Code of Conduct

- I will openly communicate during Board meetings and voice my views, in the meetings, on all matters regarding the District.
- I will support the decisions of the Board once they are voted on.
- I will concentrate on issues of governance and strategic import to the District and will expect support from staff on issues of operational import and detail.
- I will treat fellow Board members with dignity and respect.
- I will be prepared to discuss Board issues and agree to spend the necessary time and attention to Board matters.
- If I have concerns or questions, I will ask. If I need clarification of Board agenda items, I will call ahead and discuss with the General Manager.
- I will support the General Manager as the primary spokesperson for the District.
- I will conduct myself in the highest ethical manner and comply with all appropriate government regulations.

Role of Staff

- Implement polices of LWD Board
- Create tactics and action plans that address how policies should be implemented
- Provide technical competence in addressing issues of how tactics should be implemented
- Provide relevant facts and recommendations
- Provide effective leadership
- Administer day-to-day operations of the District
- Respond to reasonable Board requests for information

MEMORANDUM

DATE:

April 3, 2025

TO:

Board of Directors

FROM:

Paul J. Bushee, General Manager

SUBJECT:

Three Years No Vehicle Accidents

I am pleased to report that the Leucadia Wastewater District (LWD) achieved an organizational objective under the LWD Incentive Program:

Achieve Highest Number of Consecutive Days Without a Vehicle Accident

Under the Incentive Program, an Organizational Objective is met if the District achieves the highest number of consecutive days without a vehicle accident. On March 17, 2025, LWD staff achieved three complete years without a vehicle accident. Vehicle accidents result in economic impacts due to lost productivity, damaged public and private property, workers compensation costs, and undermines employee morale. As a result of this achievement, each employee is eligible for an incentive compensation award in the amount of \$500.

Please join me with congratulating all staff for going three years without a vehicle accident.

tb:PJB

LEUCADIA WASTEWATER DISTRICT

Minutes of a Regular Board Meeting March 12, 2025

A regular meeting of the Board of Directors of the Leucadia Wastewater District was held Wednesday, March 12, 2025 at 5:00 p.m., at the District Administration Office at 1960 La Costa Avenue, Carlsbad, California.

1. Call to Order

President Saldana called the meeting to order at 5:00 p.m.

2. Roll Call

DIRECTORS PRESENT:

Saldana, Brown, Pacilio, Sullivan, Roesink (via

teleconference)

DIRECTORS ABSENT:

OTHERS PRESENT:

General Manager Paul Bushee, General Counsel Wayne Brechtel, Director of Finance and Administration Ryan Green, Administrative Services Supervisor Trisha Hill, Field Services Superintendent Marvin Gonzalez, Executive Assistant Tianne Baity, Capital Project Manager Ian Riffel, District Engineer Dexter Wilson, and Angela Ceja and Grant

Aukland with Water Works Engineers, LLC

3. Pledge of Allegiance

President Saldana led the pledge of allegiance.

4. General Public Comment Period

None.

5. Approval of Agenda

Upon a motion duly made by Director Sullivan, seconded by Director Pacilio, and unanimously carried, the Board of Directors approved the agenda by the following vote:

Director	Vote
President Saldana	Yes
Vice President Brown	Yes
Director Pacilio	Yes
Director Sullivan	Yes
Director Roesink	Yes

6. Presentations and Awards

None.

CONSENT CALENDAR

7. Approval of Board and Committee Minutes

Minutes of the following meetings:

February 12, 2025 Regular Board Meeting

February 19, 2025 Community Affairs Committee Meeting

March 4, 2025 Engineering Committee Meeting

8. Approval of Demands for February / March 2025

Payroll Checks numbered 250212-1 – 250205-20; General Checking Checks numbered 26630 - 26757

- 9. Operations Report (A copy was included in the original March 12, 2025 Agenda)
- **10. Finance Report** (A copy was included in the original March 12, 2025 Agenda)

11. Disclosure of Reimbursements

This report discloses travel expense reimbursements for the month of February 2025.

Upon a motion duly made by Director Roesink, seconded by Vice President Brown, and unanimously carried, the Board of Directors approved the Consent Calendar by the following vote:

Director	Vote
President Saldana	Yes
Vice President Brown	Yes
Director Pacilio	Yes
Director Sullivan	Yes
Director Roesink	Yes

EWA and COMMITTEE REPORTS

12. Encina Wastewater Authority (EWA) Reports

A. EWA Board Report - Meeting held on February 26, 2025.

President Saldana reported on EWA's February 26, 2025 Board meeting.

Vice President Brown asked if there is a dependency on grants for the CLEAR Project. President Saldana answered that there is about \$14M of the Project budget which is relying on Federal grants. Vice President Brown asked if the CLEAR Project will receive the grants. President Saldana answered that it is not known at this time if the CLEAR Project will receive the grants.

The Board asked various questions regarding the CLEAR Project. Following a lengthy discussion, GM Bushee offered to give a brief overview of the CLEAR Project, the grant funding, and the impacts of this Project on the District at the April Board Meeting. The Board agreed.

B. An Encina Member Agency Manager's (MAM) Meeting was held on March 4, 2025.

GM Bushee reported on EWA's March 4, 2025 MAM meeting.

13. Committee Reports

A. A Community Affairs Committee (CAC) meeting was held on February 19, 2025.

Vice President Brown reported that the CAC reviewed and commented on the draft text of the 2025 Spring newsletter. The CAC suggested some minor edits and staff stated they would make the changes.

Following discussion, the CAC authorized staff and RTP to proceed with the draft layout of the newsletter.

B. An Engineering Committee (EC) meeting was held on March 4, 2025.

Director Pacilio reported that the EC reviewed the recommendations:

- Authorize the General Manager to execute a two-year extension to the Water Works Engineers, LLC contract for as-needed engineering design services;
- Authorize the General Manager to execute an Agreement with Palm Engineering Construction Company, Inc. for construction services to complete the Fiscal Year 2025 Gravity Pipeline Replacement Project in an amount not to exceed \$793,052.80; and
- Authorize an additional appropriation of \$270k for project construction.

Director Pacilio noted these items will be discussed later in the agenda.

ACTION ITEMS

14. Fiscal Year 2026 (FY26) Budget Development Schedule

DFA Green presented the item stating that staff is in the process of preparing the FY26 Budget. He provided the recommended dates for the Special Board Meeting to review the Preliminary FY26 Budget.

Following discussion, the Board of Directors agreed to schedule the Special Board Meeting for Monday, May 5, 2025 from 2:00 p.m. to 4:00 p.m.

No action was taken.

15. Water Works Engineers Contract Extension for As-Needed Engineering Design Services

Authorize the General Manager to execute a two-year extension to the Water Works Engineers, LLC contract for as-needed engineering design services.

CPM Riffel presented the item and provided background information. He stated that the original three-year agreement is expiring and includes a two-year extension option to maintain efficiency and continuity of service. CPM Riffel highlighted that over the past three years, Water

Works designed nine capital projects and provided construction support for six, including the successful completion of the San Marcos Creek Crossing Diversion Project and the L1 Force Main Bridge Emergency Repair. CPM Riffel continued that the District is satisfied with Water Works performance and recommends the two-year extension. He further clarified the agreement does not establish a fixed compensation amount; instead, individual task orders are negotiated as necessary and Board approval is required for amounts exceeding the General Manager's signature authority.

Following discussion, upon a motion duly made by Director Sullivan, seconded by Director Roesink, and unanimously carried, the Board of Directors authorized the General Manager to execute a two-year extension to the Water Works Engineers, LLC contract for as-needed engineering design services by the following vote:

Director	Vote
President Saldana	Yes
Vice President Brown	Yes
Director Pacilio	Yes
Director Sullivan	Yes
Director Roesink	Yes

16. Fiscal Year 2025 Gravity Pipeline Replacement Project – Award of Construction Contract and Authorize Additional Appropriation

Recommendation 1: Authorize the General Manager to execute an Agreement with Palm Engineering Construction Company, Inc. for construction services to complete the Fiscal Year 2025 Gravity Pipeline Replacement Project in an amount not to exceed \$793,052.80.

Recommendation 2: Authorize an additional appropriation of \$270k for project construction.

CPM Riffel presented the item noting that this is a FY25 tactical goal. He then provided a brief background and the location of the project.

CPM Riffel said that in July 2024, the Board authorized final design services with Water Works. Water Works completed design in December and staff advertised for bids in January. The estimated construction cost was \$1.09M. CPM Riffel reported that the District received two bids by the February 11th deadline. However, the lowest bidder, Blue Pacific Engineering, withdrew their bid the following day due to a clerical error. He continued that staff accepted the bid withdrawal, making Palm Engineering Construction Company, Inc. (Palm Construction) the next lowest bidder at \$296k below the engineer's estimate.

CPM Riffel reviewed staff's actions to ensure the bid was competitive. Based on this analysis, and the District's recent positive project history with Palm Construction, staff recommends awarding the bid to Palm Construction.

President Saldana stated that the bid amount was lower than the engineer's estimate yet an appropriation was still needed. He asked how can the District reduce appropriations in the future. CPM Riffel stated that staff uses the Repair Priority List to make a high level estimate of the project costs and that is refined as the project nears finalization. He noted that the District has an allocated budget amount of around \$600K for construction costs but during the project there are sometimes changes to the design which can increase the costs and require an additional appropriation.

GM Bushee stated that staff will recommend increasing the budget amount in the future due to inflationary pressures in the construction market.

Following discussion, upon a motion duly made by Director Sullivan, seconded by Director Pacilio, and unanimously carried, the Board of Directors authorized the General Manager to execute an agreement with Palm Engineering Construction Company, Inc. for construction services to complete the Fiscal Year 2025 Gravity Pipeline Replacement Project in an amount not to exceed \$793,052.80 and authorized an additional appropriation of \$270k for project construction by the following vote:

Director	Vote
President Saldana	Yes
Vice President Brown	Yes
Director Pacilio	Yes
Director Sullivan	Yes
Director Roesink	Yes

17. Proposed Resolution No. 2425 - Board of Directors Election of Officers, Establishment of Committees, and Selection of Committee Members

DFA Green introduced the item and provided background information noting that at the February 12th Board meeting, the Board directed staff to amend the policy to combine the Human Resources Committee (HRC) with the Investment and Finance Committee (IFC) and amend the committee appointment section to reflect that EWA representatives would not participate on LWD standing committees. DFA Green stated that Resolution No. 2425 amending the Board of Directors Election of Officers, Establishment of Committees, and Selection of Committee Members Policy has been included in the agenda for the Board's consideration. He noted that if approved, Resolution 2425 would take effect in January 2026. DFA Green then turned the item over to the Board for discussion.

Following discussion, upon a motion duly made by Director Roesink, seconded by Director Pacilio, and unanimously carried, the Board of Directors adopted amended Resolution No. 2425 - Board of Directors Election of Officers, Establishment of Committees, and Selection of Committee Members Policy by the following vote:

Director	Vote
President Saldana	Yes
Vice President Brown	Yes
Director Pacilio	Yes
Director Sullivan	Yes
Director Roesink	Yes

18. Call for Nominations to the California Special District Association (CSDA) Seat B EA Baity presented the item stating that CSDA is seeking nominations for its Board of Directors for Seat B. She provided information regarding the nomination process and noted that the incumbent, Don Bartz, is running for re-election and that staff has no recommendation on this matter.

The Board of Directors chose not to submit a nomination.

INFORMATION ITEMS

19. Project Status Updates and Other Informational Reports

2025 CSDA Legislative Days is scheduled for May 20 - 21, 2025, in Sacramento, CA.

EA Baity announced the date and location of the 2025 CSDA Legislative Days.

20. Directors' Meetings and Conference Reports

The CSDA Quarterly Dinner was held on February 27, 2025 at The Butcher Shop Steakhouse in San Diego, CA.

Director Sullivan provided a summary of the meeting. Director Sullivan stated the speakers from local fire districts were looking for support regarding the Senate Bill for Zero-Emission Vehicles (ZEV) mandates. GM Bushee noted that the District recently sent a letter supporting a bill that would revise the Zero-Emission Vehicles (ZEV) mandates. Director Sullivan thanked GM Bushee.

21. General Manager's Report

GM Bushee provided an update on the vactor fire and the insurance claims. He thanked DFA Green for his work with the insurance adjusters and the claimants.

GM Bushee also noted that the new vactor was delivered to the District last week and the Field Services team has been receiving training on the new vactor.

22. General Counsel's Report

None.

23. Board of Directors' Comments

President Saldana thanked Director Roesink for attending the meeting remotely.

24. Adjournment

President Saldana adjourned the meeting at 6:09 p.m.

	Rolando Saldana, President
Paul J. Bushee	
Secretary/General Manager (SEAL)	

LEUCADIA WASTEWATER DISTRICT

Minutes of an Engineering Committee Meeting March 31, 2025

A meeting of the Engineering Committee (EC) of Leucadia Wastewater District (LWD or District) was held on Monday, March 31, 2025 at 11:00 a.m., at the LWD Administration Office located at 1960 La Costa Avenue, Carlsbad, California.

1. Call to Order

Chairperson Pacilio called the meeting to order at 11:01 a.m.

2. Roll Call

DIRECTORS PRESENT:

Pacilio, Brown (via zoom)

DIRECTORS ABSENT:

None

OTHERS PRESENT:

General Manager Paul Bushee; Field Services Supervisor Gabe Mendez; Field Services Supervisor Mauricio Avalos; District Engineer Dexter Wilson; Capital Project Manager Ian Riffel; Tim Lewis from Water Works Engineers; and Kathleen Noel from Dexter

Wilson Engineering

3. Public Comment

None.

4. Revision of Leucadia Wastewater District Standard Specifications and Procedures for Wastewater Facility Projects.

Adopt Resolution No. 2427 revising Leucadia Wastewater District Standard Specifications and Procedures for Wastewater Facility Projects.

CPM Riffel introduced this item to the EC. He provided a brief background on the District's Standard Specifications and Procedures for Wastewater Facility Projects (Standard Spec). He noted that maintaining current Design and Performance Provisions is a required component of the District's Sewer System Management Plan. CPM Riffel then introduced Kathleen Noel from Dexter Wilson Engineering, Inc. (DWEI) to present an overview of the proposed updates.

Ms. Noel explained that the Standard Spec serves as a key guidance document for sewer construction projects. She noted that an update is necessary to align the Standard Notes and Drawings with new industry standards, legislation, and the 2024 revision of the Greenbook (Standard Specifications for Public Works Construction).

Ms. Noel then reviewed the proposed principle changes and updates to the Standard Spec, including revisions related to sewage flow generation factors, manhole adjustments and paving requirements, and material availability for manhole frames and covers.

Director Brown asked if the Standard Spec update is intended to ensure that future development infrastructure aligns with current industry standards. Staff answered affirmatively. He then inquired whether the updated standards had revealed any deficiencies within the existing public sewer system. Ms. Noel replied that the Standard Spec did not but the 2023 Asset Management Plan assesses system capacity. She added that the 2023 Asset Management Plan determined that there is adequate sewer capacity throughout the entire system.

Director Brown asked about the update to manhole paving requirements. Staff explained that the update will ensure all manholes are adjusted in accordance with the applicable city standards.

Following discussion, the EC concurred with staff to forward the recommendation to the Board.

5. Resolution No. 2428 Requesting LAFCO to Take Proceedings for the Miller & Hall Change of Organization

Adopt Resolution No. 2428, Miller & Hall Annexation, as presented.

CPM Riffel presented this recommendation to the EC. He provided the project location and a brief overview of the District's Island Area. He explained that the Island Area is comprised of approximately 400 single family homes currently served by septic systems and is located in San Diego LAFCO's Sphere of Influence, which allows the District to provide sewer service subject to LAFCO approval.

CPM Riffel clarified that a public sewer extension is not necessary for this annexation since there is an existing public sewer line in Vulcan Avenue directly in front of the property.

Chairperson Pacilio asked if the homes in the Island Area are located within the District's boundaries. Staff clarified that the homes are located within the District's Sphere of Influence and require LAFCO approval before they can be included in the District's service area.

CPM Riffel stated that the property has an existing single-family residence and proposes the construction for a new accessory dwelling unit (ADU). In accordance with City of Encinitas requirements, connection to the public sewer system is a condition for ADU construction.

Director Brown inquired whether the property would be subject to the applicable sewer capacity fees. Staff answered affirmatively.

Following discussion, the EC concurred with staff to forward the recommendation to the Board.

6. Leucadia Wastewater District Fiscal Year 2025 Pump Station Condition Assessment Report

Receive and file the Leucadia Wastewater District Fiscal Year 2025 Pump Station Condition Assessment Report completed by Water Works Engineers, LLC.

CPM Riffel introduced this item to the EC. He provided a brief background and that this assessment will prioritize and plan future pump station rehabilitation efforts which focuses on the Batiquitos and La Costa Pump Stations. He noted that assessment is the result of recommendations from the District's 2023 Asset Management Plan and incorporates recommendations from the 2021 Hazard Mitigation Plan. CPM Riffel then introduced Tim Lewis with Water Works Engineers to present an overview of the proposed updates.

Mr. Lewis stated that Water Works provided a comprehensive evaluation of the pump stations, which included the review of historical records, inspecting infrastructure, and consulting with staff to assess the age and condition of each system component. He said this assessment serves as the foundation for developing proposed rehabilitation plans and timelines.

Mr. Lewis continued by highlighting key findings from the report, including the condition of the Batiquitos Pump Station, which is the District's largest, where aging infrastructure necessitates both immediate and long-term attention. He noted structural repairs and additional condition assessment are recommended within the next year while a major rehabilitation project, estimated at \$7 million, is recommended within the next 3-5 years.

Chairperson Pacilio requested clarification regarding construction costs and project timeline. Staff explained that while a major rehabilitation is recommended in the 3-5 year timeframe, more

immediate work including structural concrete repairs and a surge tank assessment are recommended for completion within the next year.

Director Brown asked whether the assessment allows staff flexibility in determining the scope and timing of repairs. GM Bushee responded that Water Works provides the technical recommendations while staff determines the implementation schedules. The EC asked various questions regarding the assessment report and staff answered their questions.

Mr. Lewis continued that for the La Costa Pump Station, originally built in 1964, the report identifies severe corrosion, groundwater intrusion, and no remaining useful life. He added that replacement of the pump station is a high priority, with a preferred approach of relocation using trenchless tunneling. The estimated construction costs for replacement and relocation are \$4-5 million.

Chairperson Pacilio asked which pump station Water Works believes is a higher priority. GM Bushee answered the La Costa Pump Station which will take coordination with the Omni La Costa Resort. The EC asked several questions and staff answered their questions.

Following discussion, the EC concurred with staff to recommend the Board receive and file the assessment.

7. Information Items

CPM Riffel provided an update to the Batiquitos Pump Station Emergency Basin Rehabilitation Project. He reported that the project has been successfully completed, with the exception of the replacement of a submersible chopper pump, which is expected to arrive within 3-5 weeks. The EC asked several questions regarding the project and staff answered their questions.

8. Directors' Comments

Chairperson Pacilio thanked staff for their presentations.

9. General Manager's Comments

None.

10. Adjournment

Chairperson Pacilio adjourned the meeting at approximately 12:17 p.m.

Paul J. Bushee, Secretary/Manager (Seal)

MEMORANDUM

DATE:

April 3, 2025

TO:

Board of Directors

FROM:

Paul J. Bushee, General Manager/

SUBJECT:

March 2025 Board Disclosure of Reimbursements Report

RECOMMENDATION:

Staff requests that the Board of Directors:

1. Receive and file the Board Disclosure of Reimbursement Report for the month ending March 2025.

DISCUSSION:

Government Code Section §53065 stipulates that Special Districts must disclose reimbursements of \$100 or more on at least an annual basis. Leucadia Wastewater District (LWD) prepares the Disclosure Report every month in accordance with Resolution No. 2405 – The Integrated Travel Authorization and Expense Reimbursement Policy, which is above and beyond the requirements of Government Code Section §53065.

Attached please find the Board Disclosure of Reimbursements report for March 2025 for your review.

SUBJECT:

Status Update - Fiscal Year 2025 (FY 25) LWD Tactics and Action Plan

RECOMMENDED:

No action is required.

DISCUSSION:

During the July 10, 2024 Board meeting, the Board of Directors adopted the LWD FY 25 Tactics and Action Plan. Attached, for the Board's review, is the FY 25 Tactics and Action Plan's quarterly status report with an ending date of March 31, 2025. The report indicates which goals are in progress, have been completed, have been postponed and have not been started.

Encina Wastewater Authority Report Regular Board Meeting March 26, 2025

EWA Board of Directors - Director Roesink Reporting

1. Primary Sedimentation Basin Rehabilitation Project Scope Expansion

The Board of Directors authorized the General Manager to execute a scope expansion change order to the construction contract between Encina and J.R. Filanc Construction Co., Inc. in the amount not to exceed \$142,000.

The Board of Directors also authorized the General Manager to approve a transfer of unexpended appropriations from the Capital Improvement Program budget in the amount of \$142,000 to the project.

2. Dewatering and Cogeneration Building Roofing and HVAC Improvement Project Phase 1 Pre-Construction Services Award

The Board of Directors authorized the General Manager to execute a Progressive-Design Build Agreement with West Coast Air Conditioning Co., in the amount of \$153,738.

3. Public Hearing on Encina Wastewater Authority Vacancies and Recruitment and Retention Efforts Pursuant to Assembly Bill 2561 and Govt. Code

The Board of Directors held a public hearing pursuant to Govt. Code.

4. Resolution Declaring Portion of South Parcel Exempt Surplus Land

The Board of Directors adopted a resolution pursuant to Govt. Code declaring that certain real property located at 6200 Avenida Encina in Carlsbad is exempt surplus land, and finding that such declaration is exempt from the California Environmental Quality Act (CEQA) under State CEQA Guidelines. This finding was necessary to execute a lease on a portion of the South Parcel.

5. Adoption of a New Member Agency Billing Methodology

The Board of Directors adopted the following:

- Resolution No. 2025-02 adopting a new member agency billing methodology;
- Resolution No. 2025-03 eliminating Encina's Financial Reserve Policy;
 and
- A Working Capital Policy.

6. Source Control Program Technology Update

The Board of Directors received and filed the Source Control Program Technology Update.

Engineering Committee Meeting Report

Presented by Director Pacilio

Meeting held March 31, 2025

The Engineering Committee (EC) reviewed the following recommendations:

- 1. Adopt Resolution No. 2427 revising the Leucadia Wastewater District Standard Specifications and Procedures for Wastewater Facility Projects;
- 2. Adopt Resolution No. 2428 Requesting LAFCO to Take Proceedings for the Miller & Hall Change of Organization; and
- 3. Receive and file the Leucadia Wastewater District Fiscal Year 2025 Pump Station Condition Assessment Report

The EC concurred to forward these items for the Board's consideration and they will be discussed later in the agenda.

The EC also received an update on Batiquitos Pump Station Emergency Basin Rehabilitation Project. This item was for informational purposes only. No action was taken.

MEMORANDUM

Ref: 25-9072

DATE:

April 3, 2025

TO:

Board of Directors

FROM:

Paul J. Bushee, General Manager,

SUBJECT:

Board of Director Compensation Adjustment

RECOMMENDATION:

Staff requests that the Board of Directors:

1. Discuss and provide direction as appropriate.

DISCUSSION:

On June 12, 2019, after a noticed Public Hearing, the Board of Directors adopted Ordinance No. 140 which adjusted Director's compensation from \$190 to \$200 per service day. The Ordinance became effective 60 days after adoption in accordance with the California Water Code.

California Water Code Section 20202 allows for a 5% adjustment per calendar year following the operative date of the last adjustment. Since the last adjustment occurred in 2019, the Board is eligible for an adjustment not to exceed 30%. The exact amount of the increase, up to the limit, is at the Board's discretion.

A survey of Director's compensation for other agencies is attached.

This item is presented for the Board's consideration and staff has no recommendation on this matter. Staff requests that the board discuss this item and, if an increase is recommended, authorize staff to prepare, notice and schedule a public hearing concurrent with the May 2025 Board meeting.

RECOMMENDATION:

Staff and the Engineering Committee (EC) recommend that the Board of Directors:

1. Adopt Resolution No. 2427 revising Leucadia Wastewater District Standard Specifications and Procedures for Wastewater Facility Projects.

2. Discuss and take other action, as appropriate.

DISCUSSION:

Tactical Goal: Services / Update Standard Specifications

This item was reviewed by the EC at its March 31st meeting and the EC concurred with staff to present this item for the Board's consideration.

The Leucadia Wastewater District (District) adopted its current Standard Specifications and Procedures for Wastewater Facility Projects (Standard Spec) in April 2022. Originally issued in November 2006, the Standard Spec has undergone five revisions to ensure compliance with District requirements and evolving regulations. This comprehensive document establishes the administrative and technical procedures for private parties connecting to the District's public sewer system. It has been a valuable resource for both staff and developers by providing guidance on collection system procedures, planning guidelines, and design standards. Additionally, maintaining up-to-date Design and Performance Provisions is a mandated component of the Sewer System Management Plan (SSMP) under Statewide Waste Discharge Requirements (WDR).

The District Engineer, General Counsel, and District staff have conducted a thorough review and revision of the Standard Spec to reflect current industry standards, legal requirements, and best practices. The key changes are as follows:

- 1. Adoption of the 2024 Greenbook (Standard Specifications for Public Works Construction) as the base reference for District sewer construction.
- 2. Legal and procedural updates to development processing procedures, including necessary revisions to Standard Agreements and related documents in the appendices.
- 3. Revisions to Standard Notes and Standard Drawings to reflect current engineering and construction standards.

A summary of the principal revisions is attached for reference.

District Engineer Dexter Wilson, or a representative from his firm, will present an overview of the revised Standard Spec at the meeting.

Resolution No. 2427 is attached for your review. A copy of the Standard Spec is available upon request.

FISCAL IMPACT:

There is no direct fiscal impact associated with this recommendation. All privately constructed wastewater facilities are funded by the responsible private party.

dsw:PJB

Attachment

LWD Standard Specifications, April 2025 - Changes and Updates

Division 1 - Sewer System Procedures, Planning, and Design

Part 1 Preparation and Processing of Wastewater Facility Projects by Developers

Minor updates to procedures to match current practices, such as electronic plan signing instead of mylar.

Part 2 Sewer System Planning Guidelines

Updated average flow generation factor to match current District decreased flows caused by water conservation. Peaking factors were updated accordingly to ensure they captured the magnitude of recent storms.

Part 3 Sewer System Design

Updated all rock used for pipe/lateral bedding to the same size per LWD Inspector recommendations for uniformity and ease of inspection.

Division 2 - Sewer System Standard Technical Specifications (Greenbook Modifications)

Part 1 General Provisions

- 1 Updated section numbering and titles to match 2024 Greenbook.
- 2 Clarified survey requirements after new manhole construction.

Part 2 Construction Materials

1 Updated section numbering and titles to match 2024 Greenbook.

Allowed for contractors to request manhole frames and covers from LWD in the case of

2 material availability issues. Contractor will reimburse LWD or provide a replacement frame and cover.

Part 3 Construction Methods

1 Updated section numbering and titles to match 2024 Greenbook.

Part 4 Existing Improvements

1 Updated section numbering and titles to match 2024 Greenbook.

Part 5 Pipeline System Rehabilitation

1 Updated section numbering and titles to match 2024 Greenbook.

Part 8 Landscaping and Irrigation

Updated section numbering and titles to match 2024 Greenbook.

Division 3 - Standard Notes and Drawings

- GN, LN, Minor updates for clarity and consistency with other Division changes.
- & PN
- S-6, Allowed for contractors to request manhole frames and covers from LWD in the case of
- S-7, & S- material availability issues. Contractor will reimburse LWD or provide a replacement frame and cover.
- S-29 & S-Updated paving requirements around manhole lids to defer to local City and match current inspection practices.

Appendix

- A, B, C, Wording adjustments per legal counsel recommendations.
- D, &H
 - K Updated to match current LAFCO forms.
 - W Updated per 2024 Greenbook.

RESOLUTION NO. 2427

A RESOLUTION OF THE BOARD OF DIRECTORS OF THE LEUCADIA WASTEWATER DISTRICT REVISING THE STANDARD SPECIFICATIONS AND PROCEDURES FOR THE WASTEWATER FACILITY PROJECTS

WHEREAS, the Board of Directors of the Leucadia Wastewater District (LWD) desire to provide requirements and guidelines in the form of standard specifications for the processing of wastewater facility improvement plans and for the materials and methods of construction of such facilities;

WHEREAS, it is in the public interest to provide standard requirements to provide the public and LWD with well defined, concise, and understandable procedures for the processing of sewer improvement projects which, upon approval and acceptance by LWD will be owned and operated by LWD on behalf of District customers;

WHEREAS, Leucadia Wastewater District (LWD) Resolution No. 2368, approved on April 20, 2022 adopted standard specifications for the processing of privately constructed wastewater facilities; and

WHEREAS, LWD has completed a review of its standard specifications and determined that updates and changes are required;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF LEUCADIA WASTEWATER DISTRICT AS FOLLOWS:

1. The Board of Directors of the Leucadia Wastewater District does hereby rescind Resolution No. 2368 and adopts in its place and stead the Standard Specifications for the Design and Construction of Privately Constructed Wastewater Facilities attached hereto as Exhibit A;

PASSED AND ADOPTED by the Board of Directors at a meeting of the Leucadia Wastewater District held April 9th, 2025 by the following vote:

MEMORANDUM

DATE:

April 3, 2025

TO:

Board of Directors

FROM:

Paul J. Bushee, General Manager

SUBJECT:

Resolution No. 2428 Requesting LAFCO to Take Proceedings for the Miller &

Hall Change of Organization

RECOMMENDATION:

Staff and the Engineering Committee (EC) recommend that the Board of Directors:

1. Adopt Resolution No. 2428, Miller & Hall Annexation, as presented.

2. Discuss and take other action, as appropriate.

DISCUSSION:

This item was reviewed by the EC at its March 31st meeting and the EC concurred with staff to present this item for the Board's consideration.

The proposed Miller & Hall Annexation into the Leucadia Wastewater District (District) service area involves one parcel located at 327 North Vulcan Avenue in Encinitas. The parcel totals 0.23 acres and is located west of Interstate 5, north of Encinitas Boulevard, and east of N. Coast Highway 101.

This property lies within the District's sphere of influence and has an existing single-family residence served by a septic system. Per the City of Encinitas, the parcel is required to connect to the public sewer system to satisfy a permit condition for a proposed 798 square foot Accessory Dwelling Unit (ADU). The private sewer lateral for the parcel will connect to the existing public sewer system on North Vulcan Avenue.

Annexation into the District is necessary to provide sewer service to this parcel. Approval of Resolution No. 2428 would authorize the parcel's annexation into the District's service boundary. The District's existing wastewater collection and treatment systems have sufficient sewer capacity to accommodate both the existing single-family residence and the proposed ADU.

A copy of Resolution No. 2428 is attached for your review.

RESOLUTION NO. 2428

A RESOLUTION OF APPLICATION BY THE BOARD OF DIRECTORS OF LEUCADIA WASTEWATER DISTRICT REQUESTING THE LOCAL AGENCY FORMATION COMMISSION TO TAKE PROCEEDINGS FOR THE PROPOSED MILLER & HALL CHANGE OF ORGANIZATION

RESOLVED, by the Board of Directors of the Leucadia Wastewater District, that

WHEREAS, the Board of Directors of the LEUCADIA WASTEWATER DISTRICT (LWD), San Diego County, State of California, desires to initiate proceedings pursuant to the Cortese/Knox/Hertzberg Local Government Reorganization Act of 2000, Division 3, commencing with Section 56000 of the California Government Code for the proposed Miller & Hall Change of Organization; and

WHEREAS, the proposed Miller & Hall Change of Organization includes annexation of the Miller & Hall territory (APN 256-300-40-00) to the LWD; and

WHEREAS, the reasons for this proposed Change of Organization are as follows:

- LWD is empowered to and is engaged in the collection, treatment, and disposal of wastewater and has existing facilities to provide wastewater service to the territory proposed to be annexed.
- 2. The owners of the territory desire to utilize the LWD facilities.
- 3. The territory to be annexed is within LWD's Sphere of Influence.

WHEREAS, the territory subject to the proposed Change of Organization is inhabited, and a description of the external boundary of the territory is set forth in Exhibit "A" and a map thereof is set forth in Exhibit "B", both attached hereto and by this reference incorporated herein; and

WHEREAS, LWD requests that the proposed Change of Organization be subject to the following terms and conditions:

1. The annexed property is thereafter subject to capacity fees, sewer service fees, and all other district-wide Ordinances and Resolutions of LWD.

WHEREAS, LAFCO is authorized to approve this proposed Change of Organization without notice or hearing and without an election. If no express effective date is indicated, the effective date of the Change of Organization shall be the date of recordation of the Certificate of Completion and Resolution ordering the change of organization by the County Recorder.

RESOLUTION NO. 2428 Page two

WHEREAS, the staff of LWD has reviewed this proposed Change of Organization under the California Environmental Quality Act (CEQA) and has found it to be categorically exempt from CEQA pursuant to Section 15319 (a) of the California Environmental Quality Act.

NOW, THEREFORE, this Resolution of Application is hereby approved and adopted by the Board of Directors of the LEUCADIA WASTEWATER DISTRICT. The Local Agency Formation Commission of San Diego County is hereby requested to take proceedings for the proposed Change of Organization that includes the territory as described in Exhibit "A" and shown in Exhibit "B", according to the terms and conditions stated above and in a manner provided by the Cortese/Knox/Hertzberg Local Government Reorganization Act of 2000.

PASSED AND ADOPTED at a Regular meeting of the Board of Directors held on April 9^{th} , 2025 by the following vote:

SUBJECT:

Leucadia Wastewater District (LWD) Fiscal Year 2025 Pump Station

Condition Assessment Report (FY25 Assessment)

RECOMMENDATION:

Staff and the Engineering Committee (EC) recommend that the Board of Directors:

1. Receive and file the FY25 Assessment completed by Water Works Engineers, LLC.

2. Discuss and take other action, as appropriate.

DISCUSSION:

Tactical Goal: Infrastructure and Technology / Pump Station Condition Assessment

This item was reviewed by the EC at its March 31st meeting and the EC concurred with staff to present this item for the Board's consideration.

The 2023 Asset Management Plan (AMP) recommended that LWD conduct a Pump Station Condition Assessment during FY25. The goal of this effort is to prioritize and plan future pump station rehabilitation efforts. The FY25 Assessment's purpose is to document the current condition of the La Costa and Batiquitos Pump Stations and provide recommended improvements, associated cost estimates, and implementation timelines. Additionally, the FY25 Assessment incorporates recommendations from the LWD's 2021 Hazard Mitigation Plan, which identifies potential natural hazard vulnerabilities and prioritizes hazard mitigation action items. This proactive approach ensures continued operational reliability and efficient allocation of LWD resources.

The AMP recommended the evaluation of the above referenced pump stations as well as the Saxony, Avocado, and Village Park 5 Pump Stations. However, LWD postponed the assessments for Saxony, Avocado, and Village Park 5 Pump Stations due to recent upgrades or a determination that an assessment was not required at this time.

The FY25 Assessment's executive summary is attached for review. The full assessment report, including detailed findings and recommendations, is available upon request. LWD staff and Water Works will present an overview of the assessment at the meeting.

FISCAL IMPACT:

There is no direct fiscal impact associated with this recommendation.

1 Executive Summary

Water Works Engineers (Water Works) serves as the as-needed civil engineering for Leucadia Wastewater District (LWD; District). In this FY 2025 Pump Station Condition Assessment Report, Water Works conducts a condition assessment of the LWD Batiquitos Pump Station and La Costa Pump Station. The primary goal of the effort is to document the condition of major site civil, structural, mechanical, electrical, instrumentation, and controls facilities for the individual pump stations and to recommend improvements, cost estimates, and timelines for implementing said improvements. The secondary goal of the effort is to incorporate District Staff comments and anecdotes and coordinate with and comment on recommendations made in the existing District planning documents 2021 Hazard Mitigation Plan (2021 HMP) and the 2023 Asset Management Plan (2023 AMP).

1.1 Batiquitos Pump Station Background

Batiquitos Pump Station is one of LWD's largest and most important wastewater assets with a peak capacity of just under 20-million-gallons-per-day (mgd) when two pumps are on and two forcemains are open. It is located next to a beach and Batiquitos Lagoon off Carlsbad Blvd (Continuation of Hwy 101). The pump station collects flow from the entire District and pumps it to Encina Wastewater Pollution Control Facility. It was constructed in 1972 and has undergone many repair, rehabilitation, and upgrade projects, with one as recently as February 2025. Most major structural improvements are from 1972, 1986, and 2001. Most mechanical improvements are from 2001, 2006, and 2013. Most electrical, instrumentation, and controls improvements are from 2001. This is documented in Appendix A.

The pump station is exposed to several hazards that are primarily from flooding (e.g., tsunami, sea level rise, internal pump station flooding, etc.) and the 2021 HMP recommended strategies to mitigate external flooding risks. The 2023 AMP recommended an upgrade project in FY2025 that adopted some of the 2021 HMP recommendations and tackled pump replacement, generator replacement, and placement of new emergency basin pumps.

Recommendations

Water Works conducted a condition assessment of major site civil, structural, mechanical, electrical, instrumentation, and controls facilities and documented them in Appendix B and Appendix C and has made recommendations (action items) in coordination with District feedback and the 2021 HMP and 2023 AMP. The cost estimate for these improvements is detailed in Appendix D and is summarized in the table below.

Table 1: Batiquitos Pump Station Estimated Project Costs

pinion of Probable Construction Cost (OPCC) (1,2)	5	6,239,000
Mobilization, Demobilization, Special Constraints & General Requirements		
(For Single Major Upgrade Project)	\$	2,212,000
High Priority Improvements	\$	3,541,637
Medium Priority Improvements	\$	280,140
Low Priority Improvements	\$	205,100
ypical Soft Costs	S	1,498,000
Design (10% OPCC)	\$	623,900
Construction Management & Inspection (7% OPCC)	\$	436,730
Engineering Services During Construction (3% OPCC)	\$	124,780
Administration (1.5% OPCC)	\$	187,170
Environmental Services Placeholder (2% OPCC) - Assumes NOE, Biological Tech		
Study, Coordination w/ CCC & Other Agencies, Revegetation Plan & Bird Watching	\$	124,780
otal Estimated Project Cost (OPCC + Soft Costs)	\$	7,737,000
(1) Rounded up to nearest \$1000 (CY2025 Dollars)		
(2) Includes 10% Construction Contingency		

The action items have been further separated into high, medium, and low priority improvements (See Appendix D). In general, a "high priority" improvement is needed, at a minimum, for facilities required for the continued primary operation of the pump station and are primarily structural, mechanical, and electrical, or where the consequence of failure (operational risk) is high. Alternatively, "medium priority" and "low priority" improvements are for lower priority systems that are primarily site civil or access related and are needed for the secondary operation of the pump station and where the consequence of failure is low.

Water Works generally recommends a single, efficient, large-scale upgrade project. If budget constraints dictate sequencing improvements into multiple, smaller phases of work constructed by different contractors over a longer period, this would likely increase the cost overall cost of the improvements. All actions requiring a complete shutdown of the pump station (and temporary bypass pumping) should be bundled together and limited to a single project, given the very high cost of temporary bypass pumping (\$8.4K+/- a day, or \$1.5M+/- for a 6 months). Most improvements that are recommended could likely be pushed back 3-5 years if District staff concur and can safely maintain and operate said unimproved existing facilities.

If the District elects to not conduct a single, major upgrade project in 2026, then it is recommended that at a minimum, the following action items be acted upon in 2026:

- Action Item A5. Knocking back vegetated undergrowth (if permissible) and soil around the overflow weir curb and knocking out a section of curb to reduce risk of flooding to the switchgear / service entrance or monitor it closely and sandbag as necessary.
- 2) Action Item 15A,16A,17A,18A. Additional condition assessment of Wet Wells No 1 and 2.
- 3) Action Item P17 and P18. Additional condition assessment of the surge tank.

March 2025

- 4) **Action Item P5**. Additional condition assessment (ultrasonic wall testing) of the 52-year old ductile iron pipe discharge header (See Action Item P5).
- 5) Action Item P6 and P7. Repairing the 39 year old Pump #1 assembly which has a slow leaking check valve. Monitor pump closely for performance issues.
- 6) Action Item P22. Repairing the pump room damaged wall/alcove/beam.

Remaining action items recommended to be acted upon in the next 3-5 (2028 to 2030) years consist of:

- 1) A-1 through A-28 (Above Ground Improvements). A sample of the major improvements include but are not limited to:
 - o Replace and relocate carbon scrubber tank and blower due to age
 - o Fill in air-plenum / air-well and create secondary emergency egress from pump room to mitigate flooding hazards and access risks
 - o Raise and replace SDGE service entrance, switchgear, and meter due to age and to mitigate flooding hazard
 - 2) **P-1 through P-22 (Pump Room Improvements)**. A sample of the major improvements include but are not limited to:
 - o Relocate and replace standby diesel generator and power distribution to electrical room due to age and to mitigate internal flooding hazards
 - Replace pumps with submersibles and electrical distribution to pumps to age and to mitigate internal flooding hazards
 - o Replace pump discharge headers, inlets, discharge piping, valves, and appurtenances due to age
 - o Replace or rehabilitate surge tank system due to age
 - 3) **E-1 through E-16 (Electrical Room Improvements).** A sample of the major improvements include but are not limited to:
 - Replace or rehabilitate major electrical panels (i.e., VFDs, MCC, DSB, ATS, MTS, MSB, etc.) due to age and to accommodate new pumps and power distribution to/from pumps and standby generator

1.2 La Costa Pump Station

Background

La Costa Pump Station is a unique wastewater asset as it is the last package "Smith and Loveless" pump station left in the District's pump station inventory that has not been replaced yet. It uses an unconventional 32-feet deep "metal can" dry pit connected to a precast concrete wet well. It is located in Omni La Costa Resort and Spa next to center court, and has a 3.17 mgd peak capacity (1 pump, 1 forcemain).

The station was constructed in the 1964 and has undergone many repair, rehabilitation, and upgrade projects, with one as recently as 2020. The "metal can" dry pit is original, from 1964. Other major

PAGE | 1-3

structural improvements are from 1997, and 2013. Most mechanical improvements are from 2013. Most electrical, instrumentation, and controls improvements are from 1997 and 2013. The 2023 AMP recommended a major replace-in-place or relocation project in FY2028.

Recommendations

Water Works conducted a condition assessment and identified that major mechanical, structural, and electrical facilities have no remaining useful lifespan. The condition of the pump station is poor and District is at high operational risk due to the advanced corrosion and leaking, and risk of flooding, that is occurring in the original 1964 steel dry pit. Consequently, Water Works recommends the District start the pump station replacement project this year (2025) as the planning, design, and construction of the project will likely take 3 years in total.

Replacing the Pump Station in Place Conceptual Design

Replacing and installing the pump station back where it is currently is not preferred by the District (and potentially by other stakeholders) given its central location within the resort, and close proximity to center court, and other resort operations, amenities, and features. The District requires an expanded footprint, additional permanent easement, and permanent maintenance access with large vehicles to accommodate a District standard pump station facility. It is unknown if a station is compatible with the resort's planned improvements for the area, and this is the driving factor on why relocation of the pump station to the parking lot is preferred from the District's perspective. The cost of a new district pump station replaced in place is approximately \$3.0M to \$4.0M over 18 months. It will be impactful to resort operations

Replacing and Relocating the Pump Station Conceptual Design

Replacing and relocating the pump station to the parking lot is preferred as it will allow the pump station to be more readily accessible off of Costa Del Mar Road. Most the above ground facilities will be screened and close to existing walls and should not negatively impact sight lines. It is expected that the new facilities will substantially reduce District vehicular presence in the vicinity of the existing pump station and will allow the Resort to more readily alter the finished grade in the vicinity of the existing pump station. Increased fill material over existing gravity sewer pipelines would need to be checked by the District to make sure the pipelines could handle the long term dead and live loads, and sewer manholes could be replaced and raised in place relatively cost effectively.

The location of the valve vault and wet well would be inside the 100 year flood plain, but this could be readily mitigated with a subgrade floodproofed structure and raising the structure. Electrical infrastructure would be elevated, and outside the 100 year flood plain and located up against the existing wall closer to Costa Del Mar Road. The valve vault and wet well could also be located closer to the road, but this would add an additional \$100,000 to \$200,000 as it would require a new deep excavation.

The cost of a new district pump station replaced in a relocated location is approximately \$4.0M to \$5.0M over 18 months. It is approximately \$1M-\$1.5M costlier than replacing in place due to the trenchless crossing, added forcemain length, and increased abandonment activities required to accommodate the relocation.
